## Course Registration Update: MATH-GA

15 messages

Global Programs New York City &lt;gpnyc@nyu.edu&gt;

Reply-To: gpnyc@nyu.edu

To: xl3665@nyu.edu

Dear students,

I am writing with an update regarding course requests for MATH-GA.

Students are eligible for ONE graduate course per semester. Students can request a graduate course by submitting the Course Request Form (link be permission from your advisor. The Math department is no longer accepting requests from study away students through their application form.

Students interested in a graduate course must have completed Analysis I with a grade of A- or better, although certain courses have additional pre-requisites. Calculus will not be accepted as a substitute for Analysis I. Please note some graduate courses will not open to undergraduates until closer to the fall about enrollment dates at the time of approval to take a graduate-level course.

Please reach out if you have any questions.

Best,  
GPNYC

To whom it may concern

Hello, I'm a sophomore from NYU Shanghai. I have some questions about this update.

1. I have submitted three Graduate Math Course Registration Request Form for Courant math graduate courses **BEFORE** Apr 15. This form is found on [the Courant website](#) that guides the enrollment in graduate level courses for undergraduate students. I want to know if they are valid now, and if I still need to submit the course request form to apply for these courses?

2. The instruction before says that we are **suggested** to take **one** MATH-GA course in the first semester and **two** in the second semester. I want to know **if I can take two MATH-GA courses** in Spring 2023 if I plan to study away in New York for one academic year?

Sincerely  
Xinyu Li

Dear Xinyu,

Thank you for your email. Please find my responses in caps below.

1. I have submitted three Graduate Math Course Registration Request Form for Courant math graduate courses **BEFORE** Apr 15. This form is found on the [Courant website](#) that guides the enrollment in graduate level courses for undergraduate students. I want to know if they are valid now, and if I still need to submit the course request form to apply for these courses?

STUDENTS ARE ONLY ELIGIBLE TO TAKE ONE GRADUATE COURSE AND THEREFORE SHOULD HAVE ONLY SUBMITTED ONE REQUEST FORM THROUGH THE MATH DEPARTMENT. DUE TO AN OVERWHELMING NUMBER OF REQUESTS, THE PROCESS HAS CHANGED. THE MATH DEPARTMENT WILL REVIEW THE LAST-SUBMITTED GRADUATE COURSE REQUEST FROM YOU AND WILL UPDATE YOU ONCE THEY HAVE A RESPONSE. MOVING FORWARD, STUDENTS INTERESTED IN MATH-GA COURSES WILL NEED TO SUBMIT THE GPNYC COURSE REQUEST FORM FOR MATH GRADUATE COURSES.

2. The instruction before says that we are **suggested** to take **one** MATH-GA course in the first semester and **two** in the second semester. I want to know if I can take **two MATH-GA courses** in Spring 2023 if I plan to study away in New York for one academic year? PLEASE SHARE WITH US WHERE YOU FOUND THIS INFORMATION.

My thanks,  
Kristine

To whom it may concern

I found it in the instruction [Course Registration Procedures Guide](#) under the "CAS (Courant) Mathematics" section. However, the information there seems to have changed recently. Additionally, my Academic Advisor gave me the same reply that "we are **suggested** to take **one** MATH-GA course in the first semester and **two** in the second semester" on Mar 17.

Sincerely  
Xinyu Li

Subject: Re: A Question about Choosing Graduate Course  
Dear Xinyu,

You are advised to register for 1 or 2 graduate level courses in Courant because it's typically not easy for students to handle more than two. Of course, you can apply for more than 2 if you want, and the Office of Global Programs will have the department evaluate your requests and let you know which are approved.

Best,  
Mingqing

Dear Mingqing

Hi, I'd like to know how many graduate courses can I apply for when studying away in New York? In particular, how many graduate courses in **Courant** can I apply for? I heard that there are some restrictions (<= 1 course in first semester, <= 2 course in second semester) but failed to find any source.

Sincerely  
Xinyu Li

Sorry, I have found the source. It's on [Courant's official website](#).

## General course enrollment policies

- Students are normally granted permission to enroll in one graduate course in their first semester of receiving permission, and a maximum of two in subsequent semesters.

Dear Xinyu,

Have you heard back from the Office of Global Programs? When you forward an email, it would be helpful to clarify what information or help you need from the recipient. In your case, I'd like to know how you want me to support you. If you want to ask the same questions to me, my answers are below:

1. Wait for the response from OGP because their office is responsible for reviewing course requests in NY.
2. You can apply for two graduate level math courses, but the OGP and math department will make final decisions on how many are approved each student.

Best,  
Minqing

Dear Xinyu,

Thank you for sending this over. This information is for New York math majors. Study Away students may enroll in one MATH-GA course. Please fill out the [GP NYC Course Request Form](#) to make a request.

Please let me know if you have any additional questions.

My very best,  
Kristine

Dear Kristine

Sorry for the late reply. The instruction on Courant's official websites says explicitly in the eligibility section that the information is students who are "enrolled at NYU New York, or **NYU Shanghai** or NYU Abu Dhabi visiting New York at the time the course is offered". Students from NYU Shanghai can also enroll in a maximum of two graduate courses in the subsequent semesters. So, does this mean, if I study away in New York for an academic year (Fall 2022 + Spring 2023), I can enroll in two math grad courses in Spring 2023 (not Fall 2022)?

Sincerely  
Xinyu Li

Hi Xinyu,

In our discussions with the Math department, study away students are able to take only one MATH-GA course. We will make sure to update students if that policy changes.

My best,  
Kristine

Wed, May 11, 2022 at 1:27 AM

Dear Kristine

Is there any reason for this change of policy? There seems to be no such restriction on students from NYU Shanghai in previous years of study away. This is just unfair for students in NYU Shanghai.

Sincerely  
Xinyu Li
